## ABOUT THE TEAM JACK FOUNDATION

**Our Mission: Funding impactful childhood brain cancer research and working to raise national awareness for the disease.**

Your donations and sponsorship support research for:

- Identifying and treating childhood brain cancer genetic mutations.
- Successful, cancer-fighting medicines proven to be gentler on children's long-term health.
- Improved neurosurgical procedures.

Your investment in Team Jack goes directly to research that will change a child's life. This fight is bigger than any of us and bigger than our Nebraska home. Nationwide, we will fight for a world without childhood brain cancer.

While research of all childhood cancers is extremely underfunded, childhood brain cancer in particular needs immediate attention. Over the past 30 years, brain cancer has overtaken leukemia as the deadliest childhood cancer. That's not because there have been more cases of childhood brain cancer but because the survival rate of leukemia has increased.

And the survival rate of childhood brain cancer has not increased at all. That is why we continue to fight.
